DENIES PLANTS BEING DISMANTLED  
FOR SHIPMENT TO USSR

The Yugoslav Tanjug news agency reported through the Yugoslav press and radio that on the night of 24 June 1950 a train with sealed freight cars had passed through Arad and Timisoara, Rumania. They contained, according to Tanjug, soldiers and workers who had refused to carry out the order of the Hungarian authorities to dismantle certain plants which were to be shipped to the USSR. Tanjug reported that recently parts of the Mavag Plant and one of the departments of the machine-tool division of the Manfred Weiss Works at Csepel were dismantled for such shipment.

INCREASE PRODUCTION FOR KOREA WEEK -- Budapest Magyar Nemzet, 10 Aug 50

In the third day of Korea Week, workers across the country report production increases above their pledges. Workers of the Hungarian State Railroads have to construct a complete export-type locomotive within the week in excess of planned production. Workers of the Kistext textile plant, who pledged to increase canvas production by 4,000 meters per day, exceeded their pledge on the first day by producing 9,000 meters more. Workers of the Small Motor and Machine Factory are producing a locomotive engine, 15 other engines, and eight boring machines above the planned production.
